PRIYANSHU PUNDIR

FULLSTACK DEVELOPER

+91 9548014400 • Rawat Vihar, Nathuwawala, Dehradun, 248008 • priyanshupundir36@gmail.com

Priyanshu Pundir | LinkedIn • **PriyanshuPundir01 (Priyanshu Pundir)**

PROFILE

Full Stack Developer skilled in Java, JavaScript (React.js, Angular), Python, and SQL, with hands-on experience across the Software Development Life Cycle (SDLC) — from RESTful API design and secure backend development to responsive front-end interfaces. Delivered production-grade projects including an AI-powered RAG platform achieving 87–92% retrieval accuracy and a secure banking system processing 10,000+ transactions with 100% data integrity. Experienced in Agile/Scrum collaboration, Git version control, and cross-functional teamwork with QA and security teams.

EDUCATION

Graphic Era Hill University – Dehradun, India **2024 – 2026**
Master of Computer Applications (MCA), CGPA: 7.22

Graphic Era Hill University – Dehradun, India **2021 – 2024**
Bachelor of Computer Applications (BCA), CGPA: 7.37

EXPERIENCE

Quality Assurance Analyst, Berg Technologies Pvt. Ltd. **Dec 2025 – Aug 2026**

- **Functional & Regression Testing:** Executed 150+ functional and regression test cases per release cycle across full-stack web applications, identifying 4 identifying 40+ critical defects before production deployment.
- **SQL-Based Data Validation:** Wrote SQL queries to automate data quality audits across production databases, improving data accuracy by 35% and cutt 35% and cutting manual verification time by 5+ hours per week.
- **Agile Collaboration & Issue Tracking:** Logged and tracked technical defects in issue-tracking tools while collaborating with 10+ Subject Matter Experts a Experts and Team Leads in Agile sprint ceremonies, improving defect resolution time by 20%.

Prodigy InfoTech | Cyber Security Intern **Sept 2025 – Dec 2025**

- **Secure Application Development:** Built a secure login module and file integrity checker in Python using AES-256 encryption (PyCryptodome), achieving achieving 100% data confidentiality across all tested cases.
- **Performance Recognition:** Commended by the Software Engineering Manager for exceptional attention to detail and problem-solving on complex securi complex security features.
- **Formal Recognition:** Awarded a formal Letter of Recommendation for consistently exceeding expectations and rapidly mastering industry-standard secu industry-standard security practices.

PROJECTS

Nexus Intelligence – AI RAG Platform Python, LangChain, Streamlit, ChromaDB

- Architected and deployed an enterprise-grade Retrieval-Augmented Generation (RAG) platform using LangChain and Streamlit; integrated NVIDIA embed NVIDIA embeddings and ChromaDB vector storage to build a persistent semantic index achieving 87–92% retrieval accuracy.

OmniVault – Mobile Security App Java, Android Studio

- Engineered an Android application using the Biometric API for facial recognition and fingerprint authentication, eliminating password-based login and redu login and reducing credential-based vulnerabilities.

Money Matrix – Banking System C++, File Handling, OOP

- Designed a secure C++ banking system with persistent file-handling architecture, supporting 10,000+ simulated transactions with 100% data integrity acro integrity across accounts, loans, and admin records.

Sangeet & Automotive Hub – Web Platforms HTML5, CSS3, JavaScript

- Built two responsive front-end platforms: a music-streaming site with a custom audio player, and a car-trading platform with authentication, search filters, a search filters, and an admin dashboard.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), Java, Python, C++, C, SQL
- **Frontend & Mobile:** React.js, Angular, HTML5, CSS3, Responsive Web Design, Android Studio, Biometric API
- **Backend, Tools & Practices:** RESTful API Design, MySQL, Git, GitHub, VS Code, Postman, Agile/Scrum, SDLC, OOP, Unit Testing, Netlify, Vercel Vercel
- **Interpersonal Skills:** Leadership, Team Collaboration, Problem-Solving, Effective Communication, Cross-Functional Collaboration, Multitasking

ACHIEVEMENTS AND CERTIFICATIONS

- Python for Machine Learning – Edupyramids, 2026 | Data Analytics Job Simulation – Deloitte, 2026 | Cyber Security – Prodigy, 2025 | CCNA – Cisco, 2024 | MCSA – Microsoft, 2024 | Web Development Bootcamp – Udemy, 2023
